

OMNIA

Windows & Doors

WHERE STYLE MEETS PERFORMANCE

Product:
Bay Windows,
Casement Windows
and Residential Door
Colour:
Anthracite Grey

The Future of Windows, Designed for Today

Fully flush inside and out, OMNIA delivers a sleek, modern look with next-generation performance. The Feinstruktur surface finish enhances this aesthetic, closely resembling powder-coated aluminium with a finely textured PVCu foil, offering a sleek, modern finish.

Innovative Windows, Redefined!

OMNIA is not just any window profile – it's a revolutionary leap forward in PVCu windows and doors fabrication. With OMNIA, we're setting entirely new standards for design, efficiency, and security, ensuring that spaces don't just meet but exceed the demands of tomorrow's building regulations.

Bay Window with
Side Opening Casements
Colour:
White Woodgrain

OMNIA is designed for durability and performance.

Expect exceptional thermal and acoustic properties when glazed with triple (0.79* w/m²K), double (1.2 w/m²K) or single glazed units. Benefit from augmented weather protection thanks to the double-rebated frames. And enjoy windows that glide open smoothly and close securely. OMNIA frames are also compatible with a wide range of precision engineered fixtures and fittings for quality windows that can last a lifetime.

We've designed more than five decades of market-leading experience and expertise into OMNIA. So you can save energy and feel secure, without compromising on style.

Every detail considered.

With OMNIA, the real beauty is in the manufacturing details.

Using insights from leading fabricators, we've produced a comprehensive, true Double Flush suite that blends the time-tested features you expect from VEKA with pioneering thinking that will revolutionise your approach to window fabrication.

Invisible mullions

OMNIA windows can be constructed with invisible mullions, maintaining a sleek and unobstructive aesthetic both inside and out.

Mechanical jointing

OMNIA provides versatility and compatibility with leading jointing methods, offering enhanced structural integrity and long-lasting performance.

Rider block mechanism

Streamlines the assembly process, saving time and effort during installation.

70mm frame depth

A quick and simple retrofit solution offering greater flexibility, with hassle-free replacements or upgrades without extensive modifications to existing structures.

U Value as low as 0.79*

OMNIA will deliver exceptional thermal efficiency, enhancing overall comfort and wellbeing of building occupants, while also contributing to sustainability efforts and regulatory compliance.

Beading options

Provides design flexibility to accommodate diverse aesthetics preferences, ensuring your windows and doors seamlessly blend with the surrounding environment.

PCE gaskets included

The PCE is co-extruded to the OMNIA profile during the manufacturing process, streamlining workflows and ensuring consistent quality across all installations.

Double rebates

The ultimate performance in sealing the aperture against the elements, providing superior weather resistance and durability.

*0.88 with standard triple unit

OMNIA offers a stunning range of colours to complement every home.

With perfectly matched finishes inside and out, you can create a seamless look that enhances both your interior and exterior style. Whether you prefer timeless classics or bold modern shades, OMNIA has the perfect colour for you.

Feinstruktur

Style with strength

A LEGACY OF LASTING STRENGTH.

Feinstruktur has a unique finish that's designed to stand the test of time. Beautifully.

You may be seduced by its sophisticated look, but the real beauty of Feinstruktur is in the innovative technology built into the decorative foil. Tested to VEKA's industry-leading standards, it boasts a high degree of resilience that resists scratches and repels fingerprints and dirt. It also withstands harmful UV rays, extremes of temperature, and exposure to chemicals and cleaning agents. The result is easy maintenance and effortless elegance. For beautiful windows, whatever life throws at them.

Our PVCu profiles and decorative foils are made from recyclable materials using energy-efficient processes. So with Feinstruktur, you're also investing in a sustainable choice.

| Anthracite Grey | Black | Slate Grey | Quartz Grey | Basalt Grey | Silver Grey | Umber | Traffic White |

Can refined also be resilient? Absolutely.

That's why we've re-imagined what's possible and created Feinstruktur [fine structure]. A decorative foil for windows and doors that offers the very best of both worlds; the practicality of a durable lacquered finish, with a finely-textured surface that mirrors the sophistication of powder-coated aluminium. A bold innovation that we're proud to say we've carried off beautifully.

Prepare to be impressed.

Feinstruktur is available in a range of sophisticated shades to create a stunning impression for contemporary or traditional spaces – inside and out. Beautiful and bold, the palette reflects the latest colour trends while complementing an array of different façades and materials.

The finely-textured matt finish adds a subtle level of refinement. It reflects ever-changing patterns of ambient light to ensure your windows have a soft sheen with an understated elegance, yet maximum stand out.

The PVCu profiles and the decorative foils are recyclable – meaning valuable resources are conserved.

Colours are for illustration purposes only, we highly recommend requesting a swatch before placing an order.
